Priorities for student use of UC-East examined

Vanessa Goodwin
Staff Writer

When you attend a meeting on campus, have you ever stopped to think how the organization reserved the room the meeting was held in? Where does one go to get a room reserved? What kinds of struggles do they face when selecting locations to hold meetings?

To reserve a classroom on campus during class hours, one must go to the Registrar's office to secure the room. During non-class hours, the University Center-West offices take care of the reservations. Piece of cake, right? Not necessarily. Here is an example of what can happen. If, for instance, an organization decides to have a meeting in the Meramec Room in UC-East, one can call to find out if the room is available for the specific evening, but problems can arise from this. Calling to make a reservation does not secure the room for that specific date and time.

Michael O'Shea

Large demand is making it increasingly difficult for student groups to reserve rooms in the University Center

One must fill out and submit paperwork to the reservation desk. This paperwork must then be processed and the organization will be contacted about the availability of the room they

requested. Even while one is on the phone with the reservationist, another organization could be in the office submitting paperwork for the same room, date, and time. All of a sudden, the

room one wants is no longer available. Welcome to the world of first come, first serve.

In a first come, first serve environment, all submitting are of equal stand-

ing, including off campus organizations. But this applies only to UC-East. Board of Curators policy opens the building to students, faculty and staff, and off campus groups. Student groups are not charged a fee to use the facility unless they charge an admission. Another added stipulation requires groups to use Marriott food if they choose to serve food. This is part of the contract with Marriott. Also, the fee students groups pay is a lesser fee than that charged to off campus organizations. Off campus groups are charged a fee according to the rooms they use and whether or not they serve food. The fee off campus groups pay is to offset the cost to provide the building to the student free.

The biggest issue right now with off campus organizations using UC-East is that they can more easily reserve a room for the same date for several years in advance and there is no recourse to students' need for the space. Student groups don't have this luxury. New officers are elected

Global news comes to Rolla: early February in review

Michael Madden
Staff Writer

As the month of February speeds by at a dizzying pace, major world events seem to be occurring almost exponentially. A recap of the first two weeks' major global events is as follows:

February 2, 1995

-Dr. Henry Foster was nominated as Dr. Elders' replacement for U.S. Surgeon General. Dr. Elders was dismissed earlier in the year for abrasive views on sexuality and other sensitive

issues.

-President Clinton made an executive order to give \$20 million to help Mexico's ailing economy.

-Boeing cut production and left many employees without work.

-More mideast peace talks happened. The peace talks showed signs of ending the continual violence between groups of differing beliefs and cultures.

February 3, 1995

-A minimum wage increase of \$.90 is proposed with much opposition from the Republican party.

-Baseball owners scrap the proposed "salary cap" weeks before the spring training is supposed to begin.

-The shuttle Discovery safely orbits the

Earth. It is planned to study debris in space and come close to a Russian shuttle.

-Much to the despair of many, the United Nations pushed for a global tax.

-In the House, much debate over a proposed line item veto for the president happened.

February 4, 1995

-Due to drastic "product cloning", the USA threatened China with severe trade sanctions.

-NASA officials proclaimed that the shuttle Discovery has a fuel leak. It may interfere with the planned close encounter with a Russian shuttle.

-A severe winter snow storm blankets the east coast with record amounts of

snow.

February 5, 1995

-The grossly prolonged baseball strike is expected to be looked over by President Bill Clinton if things are not resolved soon.

-Contrary to its agreement, Israel only partially opened the West Bank area.

-The bloody battle over a common border continued between Peru and Ecuador.

-Another peace plan was proposed to end the genocide in Bosnia and the former Yugoslavia.

-NASA decided to keep the shuttle

No Day

The OPPORTUNITIES FOR UNDERGRADUATE RESEARCH EXPERIENCE program is conducted annually to provide an active form of learning for UMR undergraduates through participation in "research" as an undergraduate student. The program is open to students in any discipline.

All full time undergraduate students with a cumulative GPA greater than 2.50 are eligible. If you are interested in participating, you should see your department coordinator. Your coordinator has listings of possible projects and can recommend faculty who conduct research which includes undergraduates. You and your faculty sponsor need to discuss the potential project, come to an agreement, and submit a one page

application to the office of the Vice Chancellor for Academic Affairs, 204 Parker Hall. The deadline for submitting your application is March 3, 1995.

Projects may provide academic credit (typically 3-6 hours of 300 or 390 credit) and/or payment of a stipend to a limit of \$1000. One-half of the stipend is paid at the beginning of the project and the remainder when a final report, approved by the cooperating faculty member, is submitted. Up to \$500 is made available for expendable supplies.

If you're looking for a supportive atmosphere to better your speaking skills, the Toastmasters Club may be what you need. Toastmasters provides a structured environment that is informal and fun. You get a chance to learn by doing, and by watching others do the same. You receive feedback from your peers - people that are in the same situation as you - and you can do the same for them.

Why do people join Toastmasters? Here is what some members said:

To learn to express ideas more clearly
To get over nervousness and stage fright

To bring life to speaking by developing vocal variety and gestures
To think quickly when faced with saying something

To develop a professional presentation style
Toastmasters can provide you the means to practice

Recognized as the nation's leading center on the study and practice of philanthropy, the IU Center of

Philanthropy is a national clearinghouse for education, research, training, and public service programs in the nonprofit sector.

all of these things in an environment that is non-threatening and supportive.

As you reach the end of your school career, you will be faced with finding a job. This means interviewing, which means speaking in front of someone. Once you are out of school and working, you will have to present your ideas and designs in ways that are convincing to others. Your success in your career can be directly related to your ability to communicate. By participating in Toastmasters now, you can learn by experimenting in a relaxed atmosphere. You can build up your confidence and make your transition into the business world a smoother one. If you think that Toastmasters may be for you, come to a club meeting and see what it's all about. Toastmasters meets at 6:00 p.m. every Thursday. Meetings are held in University Center East, on the second floor, the Missouri Room. All students are welcome.

Missouri Miner

The Missouri Miner is the official publication of the students of the University of Missouri-Rolla. It is distributed each Wednesday afternoon at Rolla, Missouri and features activities of the students of UMR.

All articles, features, photographs, and illustrations published are the property of the Missouri Miner and may not be reproduced or published without written permission.

The Missouri Miner encourages comments from its readers, and will attempt to print all responsible letters and editorial material received. All submissions must have a name, student ID number, and phone number for verification. Names will be withheld upon request.

Submissions for publication must be in our drop box (first floor of the Norwood Hall, Room 103) by 3:30 p.m. on the Thursday before publication. Submissions, not including personals, will be accepted through E-mail (Internet) at MINER@UMR.EDU. The Missouri Miner reserves the right to edit all submissions for style, grammar, punctuation, spelling, length, and matters of good taste.

The Missouri Miner is operated by the students of UMR and the opinions expressed in it do not necessarily reflect those of the university, faculty, or student body.

Athletic Department Takes A Positive Step

In response to last week's letter entitled, "Coach Unfairly Dismissed," I would like to briefly interject a personal experience. Three years ago I was an entering freshman at UMR, excited to begin the soccer and basketball seasons. My memory of the soccer program remains vivid. Physically, the program demanded excellence, as any collegiate athletic program would. However, it was the emotional lashing and negative impact that influenced my decision to leave the program after completing one season.

The problem begins, not with the rules that are imposed, but rather the manner through which they are implemented. Perhaps this explains the unusually high ratio of non-returnees in both the men's and women's soccer programs. In the last three years each

team has been a reflection of the new recruiting class rather than veterans returning to the program.

Whether in academics or athletics, a student experiences, learns, and matures through a reciprocal respect attained and nurtured through the interim between coach and athlete or teacher and student. Quality people breed quality programs. I support the athletic department in taking the UMR soccer program one step closer to becoming a quality experience.

Lastly, the author of the letter emitted many strong feelings and negative thoughts about UMR. It would seem that such solid beliefs could at least be backed up by a first and last name.

Rolla Review

Hello to all of you movie lovers out there! That word, lovers, would be appropriate, wouldn't it, since Valentine's Day was yesterday. Gosh, I hope that none of you sweethearts forgot, but if you did, maybe you can make it up by watching a few movies this weekend with your honey. With the nippy weather outside, I decided to review a couple of videos this week, which are *A Perfect World* and *Geronimo: An American Legend*.

ON VIDEO:

A Perfect World

*** 1/2

Category: Dramas

Rating: PG-13

Running time: 138 min.

This movie takes place in Texas in the 60's. It begins with two men escaping from prison and stealing a car. As they are on the run from Texas Rangers, the pair takes a young boy named Phillip hostage. Phillip be-

comes attached to one of the men in the sense of a father figure. This is an all-around great movie with action and compassion. It is under the direction of Clint Eastwood, who also stars in the movie as the Texas Ranger. Also starring in the film are Kevin Costner, Laura Dern, and T.J. Lowther.

Geronimo: An American Legend

**

Category: Action Westerns

Rating: PG-13

Running time: 115 min.

As some of you may well know, Geronimo was an Apache Indian who fled from a reservation with other Apaches to fight against the U.S. Cavalry. This movie wasn't terrible, but it didn't keep my attention as I thought it would. Since it was in the category of action westerns, I assumed that it would have had many fighting scenes. Although there was fighting, these scenes were too few and far between for my liking.

On Being a Night-owl in Rolla

I have been a night-owl ever since I can remember. When I was a child, my parents would make me go to bed at regular bedtime hours, but I would just lie there, bored and mad because I couldn't play anymore. Eventually, I started letting my imagination run amok, and I would voyage out on adventures to sea or to dark hinter lands to slay dragons and eventually drift off to dreamland.

In high school, I was given a little more freedom. My best friends, a pair of brothers, were also night-owls so we would hang out at their house and watch movies until the wee hours of the morning. My other options were to watch television or read until I was tired. I ended up burning myself out on science-fiction that way. I also developed an intolerance for infomercials and television evangelists. There wasn't much else to do in my hometown.

There isn't much to do in Rolla in the late-night hours either. Super-Wally World opened a few years ago, but watching rednecks gets boring after awhile, and I certainly don't want to spend too much money there. Not much I want to buy anyway, just food and some of their electronic gizmos (which I can't afford yet). Beyond Wally World, there isn't anything to do in Rolla after 10 p.m. I suppose I could fork out the initial 50 buck hook-up fee

for cable. But then I would have to contend with the movie channels and their nearly pathological need to show movies over and over and over again.

When looking at last week's issue of *The Miner*, I saw the results of the survey that StuCo conducted. One of the survey questions was about extending the library hours and nearly 40 percent would like to see extended hours. This same question was asked on a similar survey conducted by StuCo several years ago. The result was the opening of a room in the Math-Comp. Sci. building for use as a 24-hour study area. Yuck. I want tables, lots of space, and access to books and magazines.

The University, at least, provides a few computer labs that are now open 24 hours. I have spent many nights there until the wee hours pretending to know how to surf the internet. Usually, I just lurk around the newsgroups or play around on the World Wide Web. The problem is that after a few nights of this I get bored.

On the other hand, if there were things to do in this budding metropolis, I wouldn't get any studying done at all. For example, this article was finally revised at 2 a.m. I guess when I finally graduate, I am going to have to make sure I get a job in a large city. Hopefully, a city that doesn't go to bed at 10 p.m. as the smaller cities and towns tend to do.

**Ira Tate

Coming Up Soon...

Spring Career Fair- Wednesday, February 22, 9AM-3PM, located in Centennial Hall, UCE. The Career Opportunities Center is sponsoring this event. I attended the fair hosted by the COC last semester, and it was really an eye-opening experience.

At the last fair, I would say there were at least fifty companies represented. All the booths had large signs displaying which majors they were in-

terested in, so all I had to do was browse until I found something that looked interesting. Talking to the guys in suits was, at least for me, a little intimidating. So, I would advise giving yourself a pep talk before you go, and have some questions for the recruiters prepared beforehand. See you there!

Boyz N the Hood- Tuesday, February 21, 7PM at Miles Auditorium. Ad-

mission, \$3 at the door.

This film was made in 1991 by director John Singleton, and I remember hearing a lot about it at that time. It was controversial because of its violence and accurate depiction of life in the hood of L.A., but it was an excellent film for those same reasons. **Boyz N the Hood** is one for which I am definitely willing to trade two hours of my waking day.

**Janelle Anderson

Oz in Rolla...

Ya know, people say a lot of things about college. The one thing that I noticed most people like to say is that you go there to find out who you are. And, I think that for the most part, this is true. But, as is the case with most journeys, the college highway has many detours and off-ramps.

And, of course, Hollywood has noticed this and decided that it makes a great plot for TV and movies. And to a degree I think "Yeah, a movie about college life! That looks cool..." Yet, sometimes I wonder if life is imitating art...

The best example of this is the classic movie, "The Wizard of Oz". Right now, most of you are going "Huh?" but bear with me a second. In the movie, each of the main characters was searching for something to make their lives complete (sound familiar?). The really neat-o part of this is that many of the things in the

movie are symbolic of college life.

Take the Scarecrow. All he wanted was a brain. As I look around I realize that a lot of people (myself included) are engaged in a similar quest. All that we want is a GPA.

And let's look at the Lion. Normally the Lion is considered the baddest thing on four feet. But in the movie, the Lion had a severe case of lack-of-guts, so he was searching for the ever-elusive prize of courage. Since the Lion had no courage, he didn't really get out and do much (remember how reluctant he was to join the group?). Here in Rolla, my good buddy, "Whammo," seems to identify with the Lion. He is always complaining that there is no life in Rolla. Many of us want to tell him that having a life in Rolla is a fallacy, but none of us have the courage to tell him.

Which brings us to the Tin Man. He needed a Heart. Of course the first question is: Why does a mechanical

man want a heart? Or if he had one before, what happened to it? Is he a heavy smoker or just really forgetful? Anyway, it seems that he wanted the heart so that he could have feelings. Well, I know of many a person here on campus who could use a heart (especially when doing my grades- just kidding!). One who comes to mind is my friend "BB." He is always saying how he needs a date. A couple of times he has subconsciously let an opportunity pass him by, so most of us figure that he needs a heart so that he can be a little more perceptive to the "subtleties" of life...

And last but certainly not least, there is Dorothy. Her big wish? To go home, of course! And I think I can safely say that describes most people on campus after the first major wave of tests hits the school. Now if I can only figure out what Toto was searching for.....

**J.A.F.O.

Blanche & Rose

The World According to Rolla

(It has been said that, "Lucky in love, unlucky at cards." Well, in that case, we are on the first flight to Vegas, for our love (or lack of) lives are interesting, to say the least.)

We have said in the past that we are old. Ancient. Decrepit. OK, we are not THAT old, but you get the picture, eh? Take for instance how we can't party anymore. A couple Saturdays ago, we tried to do the infamous Century Club. We are not Century Club virgins, but we sure as hell lost our touch as well as our guts. One of us, Rose that is, made it to a big 35, and puked her linguine with clam sauce up. I, on the other hand, made the big 100, and proceeded to break all the blood vessels in my eyes from blowing so

hard. But the only consolation to being drunk and belligerent was that our men were very sympathetic to us worshipping the porcelain god. All we need is a guy who will hold our hair when we puke. (The ideal Valentine's Day gift for the female Rolla student.)

Hooray, hurrah, Mizzourah, Mizzourah Tigers! Well, BFD. People cannot, we repeat, cannot drink and/or party at Mizzou. How do we know? Well, one of us used to attend MU, and the other one of us frequents Hohumbia quite often. There are some real kick-ass bars at MU, unfortunately J.Crew-wearing, sorority/fraternity snots driving Mummy and Daddy's Beamer, 90210 hairdo-wannabes, Grateful Dead listening, granolaish (not true Birkenstock-wearing, long-haired hip-

pie chicks who think they are the best thing since sliced bread) FREAKS go to these watering holes. The bars up there are actual bars, meaning they serve something besides beer. Cool music is played at all times, and usually some MU-sucking sports team is being shown on the television. (By the way, if you have ever had an oatmeal cookie shot, what the hell is in it? They are good, but we don't know what is in one.) People up there can't drink. The worst chugger/drinker at UMR could put someone "down" up there like nothing. Hello, social drinking is fine every now and then, but every once in a while, one needs to get really blitzed. Mizzou, get your damn kegs back, or

Miner Basketball Healthy Again - But Still Fall Short

Carl James
Staff Writer

For the first time in a long time the Miners had something to cheer about. 6-9 junior Jamie Brueggeman returned to the floor this week for UMR's games against Northeast and Northwest Missouri State. Brueggeman's presence made a definite impact on the play of the Miners, who, after an eight game losing streak full of blow outs, gave a serious scare to the number one team in the MIAA (Northeast), and were tied with 25.6 seconds left away from home (at Northwest). Both of last weeks games were nail biters for the Miners, but still closed with a familiar ending, extending the Miners losing streak to 10.

On Wednesday night the Miners returned to the Gale Bullman Multipurpose building in Rolla to host the league leader, Northeast Missouri State. Northeast shot off to a six point lead with 3 layups in the first 90 seconds of the game. After receiving his first foul, 6-7 sophomore center, Jeff

Kokal, left the game, replaced by Brueggeman who got a big hand from the Rolla crowd. The Miners slowly inched the score closer and made an impressive showing against the strong Northeast team. The Miners pulled within one before the second half, but left the floor down by four after a buzzer beating three pointer by Brian Bascich of Northeast.

The Miners played a strong second half until the final minutes of the game. In fact, it looked as if a Miner victory was eminent with 6:12 left in the second half. UMR was up by 10, but the momentum shifted, the Miners got tired, and Northeast went on a 21 to 2 run to win the game by a score of 77 to 68.

The game had the Miner crowd truly excited for the first time in over a month. UMR played a solid inside game, and was not dependent upon outside shooting. The addition of Brueggeman figured prominently in the Miners 37 rebounds. Throughout the game

Even with the return of #45 Jamie Brueggeman, the Miners extended their losing streak to 10 games.

the Miners had a true center in the game, with either Brueggeman or Kokal always on the court. The Miners spread the scoring around, with 4 men in double figures. George Lee, Tim Holloway, and Scott Rush each had 10 points, and Brueggeman was the team leader with 16.

With the tough loss behind them, UMR traveled to Maryville to take on the only MIAA team the Miners had beaten this year: Northwest. The Miners were hoping to finally take home a road victory, now that they were finally healthy again. However, the game did not start well for UMR. Northwest jumped out to an early 13 to 2 lead. The Miners finally started getting into the game and didn't let the margin extend the rest

of the half, entering the locker room down 36 to 26.

The start of the second half didn't look pretty for the Miners. By the 10:32 mark, the Miners were down by 20, 61-41. At this point, the momentum shifted and the Miner's went on a charge that tied the game with 25.6 seconds on the clock. It wasn't enough however, and Northwest hit four free throws which gave them the game 73 to 69. This time the Miners only had two men in double figures with George Lee leading the way with 21. Lee hit 5 three point baskets. Brueggeman repeated his scoring performance from Wednesday with 16.

Despite the losses, it is obvious that the Miners are a different team with the return of Brueggeman, arguably the best rebounder in the MIAA. The Miners won the rebounding battle against Northwest 34 to 31 and finally showed that they have an inside game. With a pair of home games this week, the Miners have a shot at breaking the losing streak and surprising Washburn on Wednesday the 15th or UMSL on Saturday night the 18th. A ten game losing streak is something the Miners need to put an end to. I believe the Miners will be ready this week.

Miner Football Signs 24 Letters of Intent

UMR Football
News Source

University of Missouri-Rolla head football coach Jim Anderson has announced that 24 players have signed national letters of intent since Feb. 1 to play football at UMR for the 1995 season. A national letter of intent binds a student-athlete to play at an institution for one year.

"I think we are way ahead of where we were at this time last year," Anderson said. "With these initial signings, we have recruited an outstanding nucleus with which to build on. We would still like to sign between 30 and 35 players before we are through."

"Defense was our number one concern as far as trying to fill some of the slots opened due to the losses of nine seniors on that side of the ball," Anderson added. "Wide receivers were another priority for us and we signed three there to help bolster that position."

Among the Miner signees this year, 14 are projected as defensive players. UMR also signed five players who could play either on the offensive line or tight end, as well as a running back and a quarterback. Of the 24 players signed by the Miners, 19 are from

Missouri.

The following players have signed with UMR:

- *Bobby Barton, a 5-foot-11, 180-pound defensive back from LaPorte, Texas High School
- *Jason Broadus, a 6-0, 190-pound linebacker-strong safety from Rossville, Kan.
- *Dean DeShelia, a 6-4, 200-pound linebacker from Rolla High
- *Andy Eason, a 6-2, 220-pound defensive end from Sikeston High
- *William Feickert, a 5-11, 195-pound linebacker from Columbia Hickman High
- *Jackie Green, a 6-1, 230-pound tight end-offensive lineman from Joplin High
- *Preston Kramer, a 6-0, 230-pound center from Schyler County High in Lancaster, Mo.
- *Rob Langford, a 6-1, 200-pound linebacker from Jackson High
- *Bryan Lewis, a 6-3, 200-pound defensive lineman from Rolla High
- *Jon Morgan, a 6-4, 217-pound defensive end-tight end from Putnam City North High in Oklahoma City, Okla.
- *Nathan Murphy, 1 6-0, 220-pound fullback from Fort Zumwalt South High in St. Peters, Mo.
- *Sam Petty, a 6-2, 160-pound defensive back from Hazelwood Central High in Florissant, Mo.
- *Jon Schrader, a 6-2, 265-pound offensive

lineman-defensive lineman from Northwest High in House Springs, Mo.

- *Travis Short, a 5-9, 160-pound wide receiver from Kansas City Rockhurst
- *Andy Singleton, a 6-1, 165-pound running back-defensive back from Rolla High
- *Mark Smith, a 5-10, 165-pound wide receiver from St. Charles Duchesne High
- *Steve Smith, a 6-0, 175-pound wide receiver from Rolla High
- *Cooper Snyder, a 6-3, 240-pound defensive lineman-offensive lineman from Columbia Rock Bridge High
- *Matt Steelman, a 6-0, 185-pound defensive back from Rolla High
- *Pat Tolliver, a 6-0, 215-pound linebacker from DuQuoin, Ill.
- *Wes Tull, a 6-4, 245-pound offensive tackle-defensive tackle from Camdenton High
- *Charles Varadin, a 6-2, 205-pound linebacker-tight end from Hannibal High
- *Trent Wilson, a 6-2, 185-pound quarterback from Belton High
- *Jim Younce, a 6-1, 260-pound defensive lineman from Bolingbrook, Ill., High

UMR, a member of the Mid-America Intercollegiate Athletics Association and NCAA Division II, was 5-5-1 overall and 4-4-1 in the MIAA last year. It was the Miners' first .500 season since 1987.

Coastal Teams Have Trouble Riding Winning Wave

Mark Lewandoski
Staff Writer

The season is now three and one-half weeks old and the NHL seems to have two strong divisions and two pathetically weak divisions. The Eastern Conference is composed of the Atlantic and Northeast divisions while the Western Conference houses the Central and Pacific divisions. Due to the strike shortened season, all games are interconference contests. The only time a team from the Eastern division will play someone from the Western Conference is in the Stanley Cup Finals.

In each conference, one division dominates over the other. The Northeast division, composed of Pittsburgh, Quebec, Boston, Buffalo, Montreal, Hartford, and Ottawa has a combined record of 37 wins, 24 losses, 9 ties, and has turned the red light on 210 times. The Atlantic division is composed of the New York Islanders, New York Rangers, Tampa Bay, Florida, New Jersey, Philadelphia, and Washington.

They've managed only 176 goals this season thus far.

In the Western Conference, the Central division is the powerhouse with 229 goals compared to 166 goals by the Pacific division. Detroit, St. Louis, Winnipeg, Dallas, Toronto, and the hated Chicago Blackhawks belong to the Central division. The Pacific division, on the other hand, is composed of lackluster teams such as San Jose, Calgary, Edmonton, Anaheim, Vancouver, and Los Angeles. To show you how pathetic this division is, the division leading San Jose sharks would be fifth in the Central division.

You can't blame this poor progress by the coastal divisions on injuries either. All the star players that are hurt belong to some of the best teams in the league. Pittsburgh is without Kevin Stevens, due to a broken ankle, for another three weeks. Stevens finished last year in fourth place in the point standings. Even with this inconvenience and also without Mario Lemieux for the season, the Pittsburgh Penguins have yet to lose, posting a 10-0-1 record. Buffalo's Pat Lafontaine, always a goal scoring threat, is due back in two weeks after blowing out his knee sixteen games into last year's season. Buffalo will

only get better with his return to the lineup and are right now only three games behind Pittsburgh in the Northeast division. Al MacInnis of the Blues has been out for a week and a half due to a separated shoulder and will miss another week. St. Louis is only three points out of first in the Central division. The Chicago Blackhawks are without leading goal scorer Joe Murphy because of a pulled groin, but are first in the Central division with sixteen points.

Hopefully this is not a permanent trend. This season still has about 35 games to go and with any luck, the divisions will equal out and we will have a competitive run to the Stanley Cup Playoffs.

Look for the emergence of the Boston Bruins, New York Rangers, Philadelphia Flyers, Vancouver Canucks, and Montreal Canadiens to go on a hot streak and make things interesting. Also take notice as Pittsburgh will start to cool down and bring Quebec with them. Once the St. Louis Blues get healthy and return MacInnis and Stastny back to the lineup and Curtis "Cujo" Joseph gets hot, they should contend for the division championship. GO BLUES!!

Roller Hockey Update

The UMR Roller Hockey League is under way again for the Winter Semester 1995 Season. The league is made up of six teams with 10 to 12 players on a team. Each team plays two games a week with stats and standings being kept to reach the ultimate goal, the Roller Hockey Cup.

After three weeks of play, things are really starting to heat up. Team 6 headed by Brian O'Neill has the early lead and are currently on a five game winning streak. Brian O'Neill has also pulled away in the scoring race with 11 goals and 6 assists for 17 points. Chris Goo has the early bid for best goalie in the league with a 2.50 goals against average. The leading goon is Rodney Mathenia, the team 1 goalie, with 9:00 minutes in penalties.

The scoring leaders through three weeks are:

TEAM	GOALS	ASSISTS	POINTS
Brian O'Neill	6	11	17
John Thien	3	6	12
Bill Keuss	1	10	12
Scott Fischer	6	6	11
Kris Staszczuk	5	6	11
Chris Scott	2	8	10
Tom Carpenter	3	7	10
John Boeckmann	6	6	10
Randy Gresham	6	5	10
Mark Lewandoski	1	5	10
Denny Koscielski	1	4	10
Bryan Long	5	6	9
Neil Hornsey	3	6	9
Dillion Derrick	6	5	9
Steve Becher	3	4	9
Dan Furmanek	4	5	8
Brian Schanuel	4	3	8

The league penalty minute leaders are:
Rodney Mathenia 9:00
Tom Carpenter 6:00
Bryan Long 5:00
David Bohnenstiehl 4:00
Randy Gresham 4:00
Heath Hensley 4:00
9 Players 2:00

TEAM	GAMES	WINS	LOSSES

Hicks College Basketball Report

David Hicks
Staff Writer

Surprise - There's been another shift in the top ranked teams. With North Carolina losing to Maryland last week, there are four teams that could take over the number one spot. Kansas would be the logical choice but Oklahoma State put a wrinkle in the Jayhawks plans by beating them on Monday. Kansas did bounce back on Saturday by beating the Sooners from Oklahoma. But that's not enough to place them at the top. Kentucky is another team to be considered for the top spot as they beat the Irish of Notre Dame. UMass could also be a number one candidate, but the team to take the #1 spot - University of Connecticut.

After starting the season with an impressive win over Duke, the Huskies of UConn have been on the way to the top ever since. Led by Donny Marshall, Connecticut came out of the weekend unscathed, beating Syracuse by four. There's no telling how long they'll stay considering how many

times the number one has fallen this year. North Carolina, UMass, and Arkansas have all fallen from the top spot at least once. This trend probably won't stop here, but look for these teams to remain around the top and earning a number one spot in the Big Dance.

For the other teams in the top 22, UCLA won, UMass won, Arkansas escaped a poor Vanderbilt team, and Maryland, again, was quite impressive on their victory over North Carolina. Joe Smith, as I stated in the preseason, is now a front-runner for player of the year honors. Against the Tar Heels, he dominated both ends. Maryland should jump a few spots due to this win.

Who's Hot? - Who's Not? UConn is on their way to the top spot, Maryland and Joe Smith are atop the ACC. Missouri, after beating Oklahoma State, looks to vie for the Big Eight championship against Kansas. Mississippi State looks at winning the SEC after putting the Hogs from Arkansas in their place.

Those teams on the slide include Arkansas as they've fallen from grace with the same team that won last year's National Championship. Duke, one win in ten games in the ACC and a 11-11 record overall, may miss the tournament for the first time in ten years.

Georgia Tech gave Duke it's only win in ACC competition and lost to the Tar Heels this weekend after leading the ACC. Indiana has had more than their share of poor performances this year and Bobby Knight, Indiana coach, is fuming and looking to rebuild for next season.

Hick's Top Twenty-Two

1. UConn
2. Kentucky
3. UMass
4. UCLA
5. Kansas
6. North Carolina
7. Michigan State

Student Council

STUCO's TOP TEN COMMON STUDENT OPINIONS/COMPLAINTS

Most of you have probably filled out a Student Council Survey before, and you may have noticed that space on the back of the survey that says: **This is the most important part of the survey, so please take the time to fill it out.** The space below is provided for you to write down any suggestions or complaints about things on campus. These comments are very useful because they will be sent to people within the University who can do something about them.

Well, many students fill out this section, most of the time commenting on the facet of the university that they would most like to see changed. What is listed below is an attempt at discerning the comments that were most consistently given on last year's survey, in order of frequency. (Start the drum-roll, please.)

1. We need more parking.
2. Stop raising fees.
3. Network off-campus housing to the campus computer network.
4. Teaching: listen to the teaching evaluations, need more emphasis on good teaching.
5. Health Services should be improved.
6. Apathetic advisors.
7. Better food, need fast food on

campus.

8. Need a more student-oriented University Center with expanded services.

9. Need a better track.

10. Why must we pay an Engineering Fee?

If you would like to see all the comments for yourself, you can find them using tin, in the newsgroup, umr.studentorg.stuco, and in Gopher, under Departments/Stuco/Complaints-Suggestions. (The comments are then sorted by year and by subject.) You may also drop by the Student Council office in 202 University Center-West.

These are by no means the only things that students commented on. There were, for example, many students who commented on the curriculum and cultural programs, but the comments were wide-ranging and did not fall into a pattern well enough to be included in the list. Also, some of the things that were popular complaints or comments have already been addressed and fixed. These were left off the list.

Now, so what? Here is a list of student concerns, but what will be done about them? This semester, Student Council will be forwarding

applicable comments to the department or service to which they refer. It is part of our job to assure that student concerns are addressed, and the common concerns will be pursued by Student Council. Every semester, we work with faculty, staff, administration, and students to try to implement suggestions from our survey, and several of the issues in the list above have already been raised through Student Council. **STUDENTS CAN BE SURE THAT THE COMMENTS THEY WRITE IN MAKE A DIFFERENCE.**

One problem exists, however. If you start counting back to when this survey was filled out, you will realize that it has taken almost a year to get the results of the survey. This is obviously too long. That is why Student Council will be switching to a scantron-type survey. These surveys will be coming out later this semester, so please take the time to fill them out. There will still be a method to write in comments on the survey, and hopefully students will continue to do so. In addition, don't wait for a survey to voice your opinion, let us know right now! Email stuco@umr.edu or call 341-4280 with your opinions!

**Constitution Results will be in next week's Miner
LAST DAY TO VOTE:
WED. FEBRUARY 15th**

Student Council Survey: Student Judicial Board

In the current system, a student enters the disciplinary process when he/she is reported to Student Affairs by way of referral from the University Police, a faculty member, or some other source. The Assistant to the Vice Chancellor of Student Affairs serves as the Student Disciplinary officer.

It is the Student Disciplinary officer's job to review the case and decide whether or not the student has broken the Student Code of Conduct, a set of rules established by the Missouri Board of Curators which defines what is inappropriate behavior for students of the University of Missouri system. If the Student Disciplinary officer determines that there is a preponderance of evidence that the student has violated the code, it is her job to recommend disciplinary sanctions.

If the student chooses not to accept the Student Disciplinary officer's recommendation, the case goes before a committee of Academic Council known as the Student Conduct Committee. The Student Conduct Committee has approximately 10

members, most of which are faculty with at least 2 student members. The committee may decide to uphold the disciplinary officer's decision, dismiss the case, or impose a lighter or harsher punishment. The student can appeal the decision of the committee to the chancellor.

There is a proposal in the works that if adopted would institute a Student Judicial Board at the first step in the disciplinary process. A summary of the proposal is as follows:

The student would have the option of hearing their case by the Student Judicial Officer or by the Judicial Board. The Board would consist of five members and two alternates, all students. The Board would have the power to conduct a preliminary hearing, decide on a preponderance of evidence, and either dismiss the case or recommend disciplinary sanctions to the student. If sanctions are recommended by the board, the student could either accept them or choose to have their case heard by the Student Conduct Committee.

**What do you think about this proposal?
Email stuco@umr.edu with your opinions.**

THANK YOU!

During the third American Red Cross and Student Council Blood Drive of this semester, we collected 190 units of blood. On behalf of American Red Cross, and UMR Student Council, I would like to extend our sincere thanks for the assistance your organization provided in the way of workers and donors. Although as the workers realized the job was not the most exciting, it was important, and we could not have had a successful

blood drive without them. A special thanks goes to APO, IK, IKA, KE, and everyone who donated. We appreciate your help, and hope that you will be able to assist us again during the next blood drive, which is April 18th thru the 20th. Thanks again for all your help!

--Tom O'Neill
Community Relations Committee
Chair, UMR Student Council

Curator's Corner: Curator's Scholarship

Glad we could meet up again at the Curator's Corner. This week I wanted to clear up some confusion about one of the Board's past decisions. First, the Board has been reviewing the Curators Scholarship Program since early in 1994, and made a decision to change the program in September of 1994.

At that time, the Board voted to pass the power to the President of the University System and the four chancellors as to the requirements for obtaining the scholarship.

After several months of discussion, with consultation from each of the Directors of Admissions and Registrar's, the General Officers announced in January of 1995 that those students who became a Curators Scholar under the old requirements would remain under the old rules. Of particular concern to the students is the old GPA requirement of maintaining a 3.75 to keep 100% of the scholarship and a 3.50 to keep 75% of the award.

While current UM students must keep this GPA, the freshman class of 1995 will fall under the new guidelines and will have to maintain a 3.25 GPA to receive 100% of the award.

Keeping a certain GPA is not the only thing that has been revised. For those who are current Curators Scholars, the award amount is 100% of educational fees. The Curators Scholars of 1995 will receive a set dollar amount of \$3,500 per academic year. With the rising cost of tuition, as the years go by the value of the award will decrease as compared to the cost of education.

Other areas that were changed include class rank, ACT score and means of recommendation for the award. Under the old rules high school seniors had to be in the top 3% of their graduating class and receive a 26 on their ACT. Now, seniors must be in the top 5% of their graduating class and receive a 28 on their ACT.

Under the old rules, seniors were nominated by their high school counselor and the new rules allows the school to nominate, the university to recruit, or the student to seek an application from a UM school for the award.

Although, most of these revisions are benefiting students, in my opinion there was a major oversight in the transition from the old to the new program. The oversight was YOU--the current student. It was

recommended that the current Curators Scholars be placed under the new GPA requirement for the next three years. I want to reassure you that the students' views were represented and expressed throughout this revision process through me and the student leaders from the four campuses, but the final decision was not in our hands.

If you would like to express your opinion on this issue or any other matter please do so by sending e-mail to my attention to stuco@umr.edu. I would be happy to answer any questions you might have concerning the Board. You can also call me at 341-4280 or stop by Room 209 University Center West.

The next Board meeting will be March 23-24 here at UMR. So, I'll meet up with you next week at the *Curator's Corner* for the latest on YOU and the Board.

Respectfully Yours in Service,

Photo Of The Week

Ryan Shawgo

Can you believe that this time last week people were outside playing volleyball and now the weatherpeople are talking single digits at night and negative wind chills? Well, this is Missouri, and if you don't like the weather, wait an hour.

AID

\$2,000 scholarships

REQUIREMENTS

- Missouri Resident
- Demonstrated Interest in Community Journalism
- Have Journalistic Potential

Application available in the Student Financial Aid Office, G-1 Parker Hall.

Application deadline: March 1, 1995.

AMERICAN CHEMICAL SOCIETY SCHOLARSHIPS FOR MINORITY STUDENTS

The American Chemical Society sponsors a scholarship program to attract African-American, American Indian, and Hispanic students into careers in chemistry, biochemistry, and chemical engineering.

- Be a current high school senior interested in the study of chemistry, biochemistry, or chemical engineering and pursuing a bachelor's degree on a full-time basis.

- Be a two-year college student interested in the chemical sciences and planning to transfer to a baccalaureate program after completing the two-year degree.

- Be a freshmen, sophomore, or junior planning to complete a degree program in chemistry, biochemistry, or chemical engineering.

- Have an average of at least "B" or the equivalent.

- Be a U.S. citizen or permanent resident of the U.S.

- Have a strong interest in a career in chemistry, biochemistry, or chemical engineering.

Applications available by call toll-free 1-800-227-5558. (Then press 9, press 3, press 5.)

ROLLA LION CLUB/VANCE SCHOLARSHIP FUND

Requirements must be a high school graduate of Rolla, St. James, Newburg.

Grade Point Average 3.0 or better.

Applications available in the Student Financial Aid Office, G-1 Parker Hall.

Application Deadline is: No later than April 1, 1995.

SIGMANU TRISTANG G. PINZKE MEMORIAL SCHOLARSHIP

Applicant shall be male or female enrolled in the School of Engineering at the University of Missouri-Rolla, maintaining a 2.5 cumulative grade point average on a 4.0 scale, and demonstrating leadership in campus and community activities.

Applications available in the Student Financial

Aid Office, G-1 Parker Hall. Deadline for submitting

application back to the Student Financial Aid Office is:

February 28, 1995.

THE MID-WEST CONCRETE INDUSTRY BOARD, INC.

The MCIB Educational Fund was established to provide financial aid to college engineering students pursuing a Bachelor of Science or higher degree that includes concrete and concrete design courses as an integral part of their degree program.

REQUIREMENTS:

- Applicants permanent residence as indicated on college records or the high school or record must be with the states of Kansas or Missouri and either (a) within a 150-mile radius from a point on the Kansas/Missouri state line at highway I-35; or (b) within a 25 mile radius of the main U.S. Post Office at the mailing address of a current MCIB member.
- Applicant must be pursuing a Bachelor of Science or higher degree that includes concrete and concrete design courses as an integral part of their degree program at an accredited college or university.
- Applicant must be enrolled in or have completed concrete or concrete design courses.
- Applicant must not be a son, daughter, grandson, granddaughter, niece, or nephew of an Advisory Committee member.
- Part-time student applicants will be limited to junior class status or above. The scholarship award to part-time students will be commensurate with the cost.
- (a) A statement of appraisal of the applicant in terms of potential for growth, character, leadership capacity, and career interest from three evaluators is

required; at least one should be from a faculty member. The statements of appraisal must be returned directly to MCIB by each evaluator. Recommendations sent to MCIB by the applicant will not be accepted.

Applications available in the Student Financial Aid Office, G-1 Parker Hall. Application deadline April 30, 1995.

THE JOHN GYLES EDUCATION FUND

The John Gyles Education Fund is again this year offering financial assistance to students in both Canada and the United States. Canadian or American citizenship is a requirement. Awards are available for all areas of post-secondary study. A minimum GPA of 2.7 is required. Criteria other than strictly academic and financial need are considered in the selection process. Selected students will receive up to \$2,500.00. Deadlines for 1995 are April 15th, June 15th, and November 30th. Applicants must be mailed by these dates.

Students may receive an application by sending their requests along with a self-addressed, stamped (US 32 cents) No. 10 envelope to: The John Gyles Education Fund, Attention: R. James Coughle, Administrator, P. O. Box 4808, 712 Riverside Drive, Fredericton, New Brunswick, Canada E3B 5G4

NATIONAL SOCIETY OF PUBLIC ACCOUNTANTS SCHOLARSHIP FOUNDATION

Who can apply? Full time undergraduate students enrolled in a degree program at an accredited 2- or 4-year college or university who are majoring in accounting with at least a "B" or better grade point average.

Applications and more information on scholarship is available in the Student Financial Aid Office, G-1 Parker Hall. Application deadline is March 10, 1995.

DESK & DERRICK EDUCATIONAL TRUST

To be eligible for a scholarship from the Desk and Derrick Educational Trust application must meet the following criteria:

- Applicant has completed at least two years or is currently in the second year of undergraduate study at a duly accredited college or university.
- Applicant has maintained a grade point average of 3.0 or above on a 4.0 grading system.
- Applicant has demonstrated need for financial assistance in pursuing a college degree.
- Applicant is a citizen of Canada or the United States.
- Applicant plans a career in the petroleum or an allied industry.

Applications available in the Student Financial Aid Office, G-1 Parker Hall. Application deadline is:

April 1, 1995.

The NAWIC Founder's Scholarships are offered to men and women who are pursuing degrees in fields related to the construction industry. Applicants must be enrolled full-time in a course of study leading to a degree/certification in a construction-oriented field. Applicant will be considered on the basis of interest in construction, grades, extra-curricular activities, employment experience, advisor's evaluation and financial need. Applications are available in the Student Financial Aid Office, G-1 Parker Hall. Application deadline is: postmarked by February 1, 1995.

The St. Louis NAWIC Scholarship is offered to men and women who are pursuing degrees in fields related to the construction industry. Applications available in the Student Financial Aid Office, G-1 Parker Hall. Application deadline is April 1, 1995.

Who can apply Full time undergraduate students enrolled in a degree program at an accredited 2- or 4-year college or university who are majoring in accounting with at least a "B" or better grade point average.

Applications and more information on scholarships is available in the student financial aid office, G-1 Parker Hall. Application deadline is March 10, 1995.

Applications for the C.J. Grimm Scholarship are now available to engineering students. To be eligible students must be in the upper one fourth of their class and be juniors or seniors who are progressing satisfactorily toward a baccalaureate degree in engineering.

Financial need is not to be considered. Applications available in the Student Financial Aid Office, G-1 Parker Hall. Application Deadline is February 1, 1995.

This competition recognizes exceptional achievements, as well as the vision, determination and academic excellence of female college juniors from across the country. Eligibility: Any women who is a full-time junior (third year of undergraduate study) at an accredited college or university for the 1994-95 academic year is eligible to enter. Application deadline is January 31, 1995.

Requirements must be a high school graduate of Rolla, St. James, Newburg. Grade Point Average 3.0 or better. Applications available in the Student Financial Aid Office, G-1 Parker Hall. Application deadline is no later than April 1, 1995.

Applicants must be full-time students who have completed 30 credit hours and be enrolled in manufacturing engineering, or manufacturing engineering technology program. A minimum overall grade point average of 3.50 on a 4.0 scale is required. Supports five scholarships of \$750 each for 1995 students. Information available in the Student Financial Aid Office, G-1 Parker Hall. Deadline for submission is March 1, 1995.

The Caterpillar Scholars Award Fund, sponsored by Caterpillar, Inc. will support scholarships awarded to worthy full-time students enrolled in degree programs in manufacturing engineering technology. Must have completed a minimum of 30 college credit hours. A minimum of 3.50 on a 4.00 scale is required. Information available in the Student Financial Aid Office, G-1 Parker Hall. Deadline for submission is March 1, 1995.

The Wayne Kay Scholarship Fund, through the SME Education Foundation, will support scholarships awarded annually to worthy full-time students enrolled in a degree program in manufacturing engineering or manufacturing engineering technology. Must have a minimum of 30 college credit hours. Scholarship applicants must possess an overall minimum grade point average of 3.5 on a 4.0 scale. Information available in the Student Financial Aid Office, G-1 Parker Hall. Deadline for submission: March 1, 1995.

The Myrtle and Earl Walker Scholarship Fund, through the SME Education Foundation, will support scholarships awarded annually to worthy full-time students enrolled at institutions, including accredited trade schools, offering degree programs in manufacturing engineering or manufacturing engineering technology. Must have completed a minimum of 30 college credit hours. Students must possess an overall minimum grade point average of 3.5 on a 4.0 scale. Information available in the Student Financial Aid Office, G-1 Parker Hall. Deadline for submission: March 1, 1995.

The William E. Weisel Fund, through the SME Education Foundation, will support one scholarship awarded annually to a worthy full-time student seeking a career in robotics/automated systems. Applicants must have completed a minimum of 30 college credit hours. Must also possess an overall minimum grade point average of 3.5 on a 4.0 scale. Information available in the Student Financial Aid Office, G-1 Parker Hall. Deadline for submission: March 1, 1995.

Each year the American Electroplaters and Surface Finishers Society offers scholarships to upper class undergraduate and graduate students who are interested in careers in the careers in the surface finishing field.

Criteria: Undergraduate students must be studying in metallurgy, metallurgical engineering, materials science, or engineering, chemistry, chemical engineering, or environmental engineering.

Selection factors include achievement, scholarship potential, motivation and interest in the finishing technologies.

Must be a full-time student during the academic year the scholarship is received.

Financial need is not a factor. Application available in the Student Financial Aid Office, G-1 Parker Hall. Deadline requested documents must be postmarked by April 15, 1995.

This is an opportunity for juniors, seniors and

Aid Office, G-1 Parker Hall. Deadline for submission: graduate students enrolled in newspaper journalism courses a Missouri four-year college and universities to apply for \$2,000 scholarships.

Proceeds from the TWA Scholarship Funds will be distributed to two law students (\$3,000 each) selected by the law schools and to four additional students (\$6,000 each) selected by a University-wide selection committee. Law students may also apply for a scholarship through the University-wide competition.

Eligibility: Students must be residents of the state of Missouri as defined by the rules of the Board of Curators (see attached Factual Criteria Sheet). Graduate and undergraduate applicants must be currently enrolled or accepted for admissions to an academic program at the University of Missouri in environmental engineering or environmental science. Graduate students are eligible at any level; undergraduate students must have completed 60 hours of college course work, not necessarily at the University of Missouri. Law students who intend to pursue a career in the area of natural resources or environmental law are eligible. Prior TWA Scholarship recipients are eligible to reapply. Applicants will be evaluated on the basis of grade point average, GRE scores (where available), research, and other relevant experience. Applications available in the Student Financial Aid Office. Deadline forward to office of the Vice President for Academic Affairs, 518 Clark Hall, University of Missouri-Columbia. Application deadline is March 15, 1995.

The Hispanic Scholarship Fund was established in 1995 to invest in the young Hispanic people of the Greater Kansas City Area by providing grants to both entering and continuing college students. The primary focus is to assist those Hispanics living in the area with the largest concentration of Hispanic residents, generally said to be the Argentine and Amourdale Communities in Kansas and the Westside neighborhood in Missouri.

A. The applicant must exhibit proven academic merit (as reflected in GPA and answer to essay question), financial need (as exhibited by family's gross income, size of family, and other financial need), and community involvement (as reflected in the application). B. The applicant is a permanent resident of the Greater Kansas City Metropolitan Area and is a United States citizen or lawful United States Resident.

C. The applicant has been accepted or is enrolled in a fully accredited college or university and is working toward an associate, bachelor, or graduate degree. (Applicants attending vocational or trade schools are not eligible).

D. The applicant must be enrolled as a full-time student (minimum of 12 credit hours).

E. Applicants must be Hispanic. The objective of this program is to provide financial assistance to Hispanic Americans.

Applications available in the Student Financial Aid Office, G-1 Parker Hall. Application deadline: March 3, 1995.

Each year the American Electroplaters and Surface Finishers Society offers scholarships to upper class undergraduate and graduate students who are interested in careers in the careers in the surface finishing field.

Criteria: Undergraduate students must be studying in metallurgy, metallurgical engineering, materials science, or engineering, chemistry, chemical engineering, or environmental engineering.

Selection factors include achievement, scholarship potential, motivation and interest in the finishing technologies.

Must be a full-time student during the academic year the scholarship is received.

Financial need is not a factor. Application available in the Student Financial Aid Office, G-1 Parker Hall. Deadline requested documents must be postmarked by April 15, 1995.

This is an opportunity for juniors, seniors and

Academy scholarships are awarded on the basis of merit to students with excellent academic records combined with a demonstrated interest in, and potential for, a career in the nuclear power industry.

have a minimum GPA of 3.0 (on a scale of 1.0 to 4.0) as of January 1, 1995.

must have remaining at least one but no more than three academic years of study (for co-operative education students, no more than six in-school semester or nine quarters)

Applications and more information is available in the Student Financial Aid Office. Deadline is postmarked no later than February 1, 1995.

Four scholarships will be awarded: on graduate level scholarship - \$600; one undergraduate level scholarship - \$500; two for elementary, high school or youth group project - \$250 each.

The graduate applicant must be enrolled in a field of study related to natural science and earth resources in an accredited college or university. Undergraduate applicants must be 60 credit hours or more and should be enrolled in areas related to the field of conservation. Preferences in all cases will be given to applicants enrolled in Missouri schools. For application forms write: Charles P. Bell Scholarship, Conservation Federation of Missouri, 728 W. Main, Jefferson City, MO 65101 or call 314-634-2322 or 1-800-575-2322. All applications are due by February 1, 1995.

Who can apply Full time undergraduate students enrolled in a degree program at an accredited 2- or 4-year college or university who are majoring in accounting with at least a "B" or better grade point average.

Applications and more information on scholarships is available in the student financial aid office, G-1 Parker Hall. Application deadline is March 10, 1995.

CRANE FUND FOR WIDOWS AND CHILDREN SCHOLARSHIP

The Admissions/Student Financial Aid Office wishes to make students aware of the Crane Fund for Widows and Children for the Winter 95 semester.

Requirements:

• for needy and deserving widows and children of men who, at their death, have left their widows and children without adequate means of support

• deserving wives and/or children of men upon whom they are dependent for support but, because of age or other disability, are unable or for other reasons, fail or neglect to adequately support their respective wives and/or children.

If you meet the above terms for this program you must complete a CRANE FUND FOR WIDOWS AND CHILDREN APPLICATION to be considered for funding. Applications can be received in the Student Financial Aid Office, G-1 Parker Hall.

APPLICATION DEADLINE IS: MARCH 6, 1995.

NATIONAL ASSOCIATION OF WOMEN IN CONSTRUCTION THE GREATER KANSAS CITY, MO

The Greater Kansas City, Missouri Scholarship Foundation offers scholarships to students pursuing a career in the construction industry. Applications available in the Student Financial Aid Office, G-1 Parker Hall.

Application deadline must be received on or before March 31, 1995.

Global

Discovery in the air despite a fuel leakage.

February 6, 1995

-The proposal for a line item veto passed in the Senate. It is expected to help cut extraneous government expenses.

-President Clinton gave players and owners one more day to resolve the strike situation.

-Clinton revealed the planned budget for 1996. Republicans site it as too exorbitant.

-The Russian forces quit bombing and attacking the breakaway republic of Chechnya.

February 7, 1995

-Surgeon general nominee, Dr. Foster, was questioned about abortions he had performed in the past.

-President Clinton beefs up border immigration laws involving Mexico.

-In Kansas, conservatives introduced a

bill to offer a moment of silence and saying of the Pledge of Allegiance.

-The popular board game, Monopoly, turned 60 years young today.

February 8, 1995

-Columbia fell victim to a massive earthquake that was the successor of several earthquakes around the globe over the past few weeks.

-Debate continued in the House and Senate over the Republicans' "Contract With America".

-The major league baseball strike remained unresolved.

February 9, 1995

-Dan Quayle announced he will not run for president in 1996.

-NATO is planned to expand beyond the bounds of Europe.

-Senator Fullbright, the man who epitomized resistance to the Vietnam War in the '60s and '70s, died.

-The crew of the shuttle Discovery conducted a space walk.

-The World Health Organizations an-

nounced women are the largest group effected in the spread to AIDS.

-The master mind behind the world trade center bombing could face more charges.

February 10, 1995

-The controversy over the nomination of Dr. Foster as the new Surgeon General continued.

-The Crime Bill was discussed thoroughly in the House of Representatives.

-Massachusetts' governor signed in a strong welfare reform package.

February 11, 1995

-The heated debate over Dr. Foster's nomination continues. Republicans site this as another example of the President's poor judgement regarding nominations.

-The shuttle Discovery safely returned home after an almost flawless mission.

-Republicans continued to press forward with their first one hundred days agenda.

from page 1

Priorities

from page 1

and make new plans every year. They can't plan their uses of UC-East five years in advance.

What can be done about all this? I spoke to Student Activities Coordinator Bill Wilson, who has been dealing with these problems for quite some time, and he feels that there is a real need for student prioritization. Also, he has some ideas on flexibility in reserving appropriately sized rooms. What this means is that if a group of ten people reserved Centennial Hall and two days later, a group of forty requested the same room, the group of ten would be consulted on a room more appropriate in size. Think these are good ideas? Well, so does Joe Ward, the director of the University Center. He follows the policy set up by the Board of Curators. He also agrees that there could be some positive changes made in the policy. These changes need to be student initiated. If students are having problems and have ideas toward solutions,

they should be heard. There is a University Center Board that consists of Faculty, Staff, and students. If you're like me, though, you probably have never heard of these meetings, which are scheduled for the first Wednesday of every month. This is the time to present new ideas.

I've primarily focused on UC-East. I think it should be said that the classroom space on campus is, in fact, prioritized to student uses. Rooms such as Physics 104 and Chemical Engineering G-3 can only be used for academic purposes because of the equipment in the buildings, so there is space available to students, faculty, and staff that is not available to the public. In dealing with UC-East, the best advice I can give is to make reservations at least a month in advance and the reservation office is there to help in finding something to fit the needs of every organization. I found them to be very helpful and they want to fix these problems as much as the rest of us do.

Concert

from page

corded more than 100 songs and has performed more than 1000 shows in the United States and around the world. They might be giants has a new release, John Henry, and their third album was recently certified a gold record. Originally a two-piece group, the band has now added a bass player, drummer, and a horn section.

Matthew Sweet, a native of Lincoln, Neb., just released his fourth album, *Altered Beast*, in July. He is

planning to release another album early March, shortly before the concert.

The concert will be held on March 18, 7:30, in the Gale-Bullman Multipurpose Building. Tickets became available last Monday, and can be purchased at the UC-West cashiers office for \$14.00 each or \$10.00 with a student I.D. Non-student tickets can also be purchased at various local businesses.

Personals

OB, Thanks for being a great big sis and a good listener
Love in AOT, YLS

Hey Sigma Chi's, Thanks for the Great social! We had a blast!
Kappa Delta

Kay Dee has great pledges!!

Anika and Amanda are awesome! Kay Dee loves you!

McGriff- You are a great little sister! Our family is so cool.
YBS

Schottel- You are a great roommate!
BDS

ATTIC ROOM KOCKS! Kim, Gina, and Chris, you guys are great!
AOT, Diana

Hey Pledge Wendy- Got any new toys lately? Like maybe a basketball??
AOT, TP

Pikes- Thanks for watching the game with us.
Kay Dee

Nate- 23 points!!! How about those Chargers?
Your Kappa Delta football pals,
Brandi & Diana

Amos- I know something you don't know!
AOT, a pledge sister

Next door neighbor- Another date with the same boy? I'm speechless!

Becky

I wanna be a K D!

Yippee yippee yai yippee yo-yo-yo!

Angie- You're doing a great job!
AOT, YLLS

Becky, "Ask again later" "Better not tell you now" "Concentrate and ask again" "Cannot predict now" "Reply hazy try again".
Mr Magic Eightball

Lisa, You are a precious angel and a treasure to behold. I hope this doesn't hurt your feelings, but I really hate you.
Love, YR

Sonya, ...18
Lico, Marites

Hey Miss Daisie, YBS loves you!!

Becky, Thanks for being an awesome roommate!!
Lico, Susan

Lisa, We have to go out and party more often! Where is it you're from? ...Kentucky? Arkansas?
Lico, Susan

Mindy, Help me out here, what's the latest fashion in sweatshirts?
Lico, Your parallel life!

Hey TP, I heard that your new favorite color is pink?!?!?
Love, 394

Anika, You're so cool!
Your wanna-be roommate

Hey Mikey, What about Diffeyscrow?
Love, YBS

Hey Brett, What about WHI-FYR?
Love, Mike's BS

ALWAYS KAPPA DELTA!!

Gina & Kiefer, You are the champions!
AOT, PR

KRIS-10: YOU'RE WAY COOL!
ZLAM, YR

Stacey, You're an awesome big sis!
ZLAM, YLS

Hey Kelly R, Thanks for going to aerobics with me!!
ZLAM, Your berry buddy

Zeta Loves Our New Members!!!

Congrats to our newest member -- We love you, Jessica!!

Sheri- You're a great roommate! Thanks for taking care of me!
You're best roommate of all time, D-

Julie- Been to any uni-sex bathrooms lately! (HAHAHA) D-

PLACE YOUR OWN PERSONAL!

Just fill out this handy form and turn it in to the box in 103 Norwood. It's that easy! (Consider this form a "Personals" crib sheet...)

Scott Alford

Second Time Around...

HELP!!!! I came to Surf the Internet, and broke my board! **HELP!!!!** I tried to get on the Information Super Highway, and I can't even find the on-ramp! Shucks, I can't even find keys to the car, let alone find out how to get it going and on the road! In fact, I'm scared to death that if I do find the keys, find the on-ramp, and get on the Super Highway, that everyone else will be doing 90 when I can't get out of first gear.

Are you with me on this, or am I the only student on this campus intimidated by the latest and greatest electronic marvel called Internet? Oh, it goes by lots of names, such as E-Mail, Information Super Highway, Internet, BBS, Rocket, Saucer, umr.edu, ISCA, etc., but I think a more appropriate handle might be Electronic Pit, or SOFT, short for Scare Old Folk Technology. Yes, I have been intimidated. I have wandered the electronic halls of that Electronic Pit. I have gotten myself so far down that I couldn't see the light. I have descended so low in the electronic realm and have been so desperately lost that I ... (*GASP*...Don't say it!) had to shut off the computer to get back out.

You know, this all started rather innocently. One of the classes I'm taking has to do with utilization of

technologies. A class requirement is to get an E-Mail address and send some messages to other classmates, the instructor, etc. Once we get on and get a little familiar with the system, we were urged to play around a bit and explore this wonderful new technology. You know, grab the old surfboard and "surf the net." Or hop in the car and take a spin on the Info Super Highway. Sounds great! Sign me up! I always wanted to find out what all my computer genius friends were so excited about anyway.

So... I cruised on down to the computer office on the lower floor of the Math and Computer Science building and said "Sign me up!" I figured that, hey, I'm an intelligent person. I've got a degree in Computer Science (albeit a degree from a few years ago!). I used to hack around a bit on the old computer when I was back in California. This'll be a piece of cake. My confidence and bearing fairly said to the woman at the desk "Just look at my brilliance! Your silly Internet NEEDS me!" All smugness was quickly dashed as soon as I realized that I didn't have a clue what I was talking about or what I should do. What service do I need? Gee... I don't know. Do I have an account or a user-id? Uh, I'm not sure, do I? You mean you don't have me all signed up, with a

personal computer waiting for me, leather armchair and all?

Hey, don't get me wrong. The woman behind the desk was polite, smiled a lot (particularly when I said something stupid), and treated me with plenty of respect... but I began to realize that this wasn't going to be as easy as originally thought. Eventually, she got me all straightened out, whence I discovered that it was MY responsibility to establish a user-id on the Internet. Wait a minute here! I just tried to walk onto the Info Super Highway, and got smacked by a semi-truck, and you want ME to set up my own account?! No way! Uh-Uh! I'm outta here. "But sir..." she said, hastening around the corner, "it's easy!" (There's that dreaded "Sir" word again... do I really look that old?) Before I could duck out the door and sprint down the hall, she cut me off. I was trapped! "It's easy, sir," she repeated. "All you have to do is follow these directions." She deftly plucked a few colored flyers down from the display on the wall, and thrust them into my hand.

What could I say? What could I do? I just knew she was thinking "Any junior high kid can do it, what's wrong with him?" So what could I do but allow her to gently nudge me across the hall to the Macintosh computer room?

My electronic journey was about to begin.

Okay, so the instructions weren't too bad, and I was able to set myself up as a new user on the network. But I could still feel the shame of having to figure out what buttons to push and of being forced to read and follow directions, while those about me typed crazily, like mad fiends intent on some dubious (evil?) task deep within the bowels of the electronic machines controlling the network. Was it my imagination, or were people sneaking glances at me, even staring at me... the "beginner?" I could just hear their thoughts... "Hah! That low-life rookie scum! He has to read the directions!" "Look out, here's another slowpoke on the highway!" "Hey old-timer, what are you doing trying to surf the net here anyway?"

But, finally, I realized that people weren't staring. They weren't sneaking furtive glances at me. There were even a few others "one-fingering-it" just like me.

Okay, buck up Scott! You can do it! After all, you even use a computer to type up your school papers and your column for the newspaper. Don't be intimidated!

And you know what? I finally got on the system, got myself set up, and

even sent out a few messages. Hey, this isn't bad. I can paddle my boogie-board around in the shallows for awhile, awaiting the day when I can finally catch that big wave and surf the net in style.

Yes, now, three weeks after first getting smacked by the truck, I'm alive on-line. I do still have my problems. I mean, I have to admit some of the messages that have arrived still look funny to me. For example, what does "Received: from saucer.cc.umn.edu (saucer.cc.umn.edu [131.151.1.58]) via ESMTP

by/ Message-Id: <199501312031.oab12284@saucer.cc.umn.edu> "okm@umr.edu" @umr.edu (Cheesehead's House of Soul) / 7bit 1.0

<199501232321.raa27534@rocket.cc.umn.edu>

really mean? (Yep, "Cheesehead" really showed up in the middle of things, though a few letters and numbers were changed to protect the "innocent.") I finally learned to ignore all the gobbledy-gook and pick out the message material that really meant something important. But it does look intimidating, doesn't it?

see Second, page 15

Real Astrology for an Unreal World

ARIES (MAR. 21-APR. 19): In honor of the denouement of your yearly cycle, I gathered a panel of expert endgamers. "What advice do you have for brave Aries," I asked them, "about the art of pulling off graceful finales?"

Panel members were unanimous in recommending that you forgive everyone their trespasses, including your own. Carrying grudges over to a new cycle, they said, is the number one cause of aborted rebirths. Many panel members felt you should review the 11 months you've just been through as if you were watching a movie played backwards. One expert thought you should give gifts to all your friends and your two best enemies.

TAURUS (APR. 20-MAY 20): The Biblical book of Isaiah prophesies a future time of undreamed-of harmony and cooperation. "The wolf shall live with the lamb... and the calf and the young lion will feed together, with a little child to tend them. The cow and the bear will be friends...and the infant will play over the cobra's hole."

I have it on good authority that you're now eligible for a mini-preview of this paradisiacal state. To receive your free introductory offer, you need only meet one condition. You must now vow not to harm any living thing--not even a cockroach. Not even the person you love best.

GEMINI (MAY 21-JUNE 20): Would you like to spend the next 30 days working your ass off to make your

bosses rich? If not, I suggest you start formulating Plan B immediately. The astrological time is ripe --ripe, that is, not to leap off the treadmill, but to begin scheming and dreaming about how to leap off the treadmill.

Here's a tip to get you in the mood. Let's assume for a moment that there's some validity in that New Age truism, "Follow your bliss and the money will come." Do you even know what the hell your bliss is? Not your mild joy, or diversionary fun, but your unadulterated bliss?

CANCER (JUNE 21-JULY 22): Your strategies are very close to working. The results you've generated so far are almost useful, bordering on successful, and on the brink of being beautiful. My question now is: you won't stop here, will you? Or will you? You've already garnered a measure of recognition. You've gotten a taste of victory over your old bugaboos. Will you be satisfied with these partial breakthroughs, or will you fight and kick and scratch to strip away all the alms?

LEO (JULY 23-AUG. 22): You're ripe! You're throbbing! You smell great! If you're single and don't want to be, the hour is at hand for your pairing. To get ready for action, let's review a few fun 'n' easy flirtation techniques. The lip-lick and the eyebrow flash are great ice-breakers. Tilting your neck sideways is always a good bet, as it exposes your neck in a fetching way. Once the dialogue is underway, patting

your clothes or smoothing your hair is sure to send signals direct to your target's libido. And when you're ready to move in for the score, nothing beats fondling nearby objects like wine glasses or keys.

Oh, by the way: If you're happily mated, all the above still applies. Use your ripeness not to win a new par amour, but to seduce your old familiar into a deeper level of intimacy.

VIRGO (AUG. 23-SEPT. 22): Menu selections: 1) chicken soup (cooked up by a Jewish mother); 2) fresh garlic salsa (whipped up by an Hispanic madonna); 3) a gallon of orange juice (fresh-squeezed by the most loving hands you know); 4) echinacea tincture (squirled in your mouth by someone with whom you like to play doctor).

Entertainment suggestions: 1) movies that provoke feelings you've never had before; 2) delicious, involving books that'll motivate you to slow down your jumpy mind; 3) smart-ass self-help audio tapes that inspire your most constructive anger.

LIBRA (SEPT. 23-OCT. 22): How do you feel about making 180 degree turns on a dime? Do you enjoy the way such challenges allow you to show off your quick reflexes and good karma? If so, this week will be tremendously fulfilling. In fact, you'll probably get the chance to pull off several 180 degree turns on a dime. To avoid whiplash and kneejerk reactions, keep your turn signal on at all times and putter around

like a little old lady.

SCORPIO (OCT. 23-NOV. 21): February 18 was supposed to have been National Blame Someone Else Day, but the jerks now in charge of the government have decided we don't need any more commemorative days. I think it's a damn shame, especially for you Scorpios. You could really use a festival like that right about now, what with all those urges to finger-point building up in you to record levels. Tell you what. Let's go ahead and have you celebrate Blame Someone Else Day anyway. On February 18, get it all out of your system in one massive flush. For those 24 hours, blow the whistle...demand accountability...and shift the frigging guilt totally away from yourself.

SAGITTARIUS (NOV. 22-DEC. 21): Have you heard that there's a new 12-step program for people who're addicted to talking too much? It's called Onandonandon. I normally don't advise you to risk behavior that borders on addictive, but what I'm suggesting this week might cause you to appear, at least to superficial observers, to be a candidate for Onandonandon.

That's right: I'd like you to tell stories, expostulate, schmooze, discourse, gab, editorialize, dialogue and maybe even drivel. The time has come, the walrus said, to communicate like an espresso-drunk talk show host.

CAPRICORN (DEC. 22-JAN. 19): Speak out! Real Astrology wants your

opinions on current issues. This week's question: What do you think about the fact that many Capricorns are now raking in more bucks, even though they're already the zodiac's second richest sign?

Here's Nessie Baum, a Gemini from Boise: "I'm jealous as sin. I'm going to hit my Capricorn boss up for a raise."

Anne Boutwell, a Pisces from Boulder: "Those greedy show-offs! It's people like them that make it easy for me to be a socialist."

Chris Rich, a Capricorn from Atlanta: "It's only fair. I'm a Capricorn and I've never been more disciplined and organized in my life. It would be a miracle if I wasn't pulling in bigger bucks."

AQUARIUS (JAN. 20-FEB. 18): The coming weekend will be a time of conception, the beginning of a process analogous to a pregnancy. The images and feelings that predominate in you on February 17, 18, and 19 will put their stamp on a creation that'll slowly germinate over the next 40 weeks and be born in the last half of November or the first week of December later this year.

Obviously, you should select your experiences very carefully on these days. You should invite into your sphere only those words, ideas and spirits that will bring out the best in you and yours.

from page 13

I tried to get on the ISCA, a nationwide talk network, but the on-ramp was closed. I've had a "wave" from ELM pick me up and slam me to the sand (wouldn't let me into my own mail!), but luckily a wonderful "lifeguard" at the Math 104 help-desk rescued me from the waters. Thanks Yi-Wan, you're a real saint! I've no idea what you typed into (or said to) the computer, but it works now! And that lost electronic file you found for me? Thanks, it was from my editor! If you hadn't located it, I might not have been paid!

As you can probably tell, getting intimately familiar with the network takes time. Don't expect to ride the big waves right away. Use those around you who have a lot more experience. Don't be afraid to ask questions. Really, I've asked more "dumb" questions

about the network and E-Mail than I care to admit, and not a single person has smirked and said "Rookie!" Most folks tell me that they were once in my shoes, that they exclusively say that it's worth the hassle. It's educational, and it's fun.

Now that I am finally in the system and can read my mail again, send me a note if you like. I'm at sla@umr.edu. Drop me a line to let me know of your experience with the "net" (or let me know what you think of my column...If I don't like what you say, I can always "Delete" your comment away!) If you're not on at least the local E-Mail system, check it out! Have fun, and don't get smacked by a truck!

DID YOU KNOW... That there are computer "short courses" offered by the Computer Science department

to help computer illiter... er... beginners? My help-desk savior informed me that they offer courses on Macintosh usage, UNIX, E-Mail, etc. Inquire at the Computer office across from 104, bottom floor of the Math/Computer Science office, or at the help-desk, room 104.

DON'T FORGET... To attend one of the last couple of Miner Basketball home games this week. The last two scheduled home games are Wednesday, Feb. 15, vs. Washburn University, and Saturday, Feb. 18, vs. University of Missouri- St. Louis. Lady Miners tip-off at 5:45 p.m., and men tip-off at 7:45 p.m.

By the way, why do they say "Lady Miners" and not "Gentlemen Miners"? Nah... no time to ask that now. Maybe a subject for a future column...? SDG

Ask

from page 5

But on with it...
The first thing you do is remember the actual day, February 14 (that's today, if you're reading this on Tuesday night). For some reason, men have a harder time remembering dates like this and, well, the other important dates - like anniversaries and birthdays. But there are a number of women with this problem, too. However, you can't just remember it: you have to verbally acknowledge it in your S.O.'s presence. You have to do it right away, when you first see them (even if you wake up in each other's presence), otherwise it's all lost.

Then you move on to the most daring part of the whole thing: you give them a card (it usually helps if you give them a card in which you write the

passage that tells them how much you care for them - not sappy, just meaningful). The daring part is that this is the only tangible thing they get. No chocolates, no cutesy balloons, no flowers (did you know that in a recent Gallup poll, 39% of women polled say they expect flowers on Valentine's Day?), no "naughty clothes," nothing else.

Just express your feelings (or love - but only if you're really sure) for them. Then spend the day (or as much as possible) doing things, not just sitting there watching T.V. or looking at each other with stupid expressions on your faces. Go on a walk, or a drive, or something - anything that just the two of you can do. Let them know you are interested in them and that you care about them. This goes farther than any

of the other things you can buy. You'll find - I think - by the end of the day, that you're in a better position than if you went and bought a lot of stuff.

So, there it is: Charles Janson's *Guide to Good Lovin'...*

One more thing: a way to really get in good is to do this more than once a year (it took me a very long time to learn this simple lesson). Your lives will be much happier and you may even grow to appreciate each other more - who knows?

Well, I'll see you next week with real things or my name will evermore be synonymous with mud (at least on this campus). And, if you've got anything at all, drop me an electronic line. My address, in case you forgot it, is: janson@umr.edu

World

from page 6

come down to Rolla, and we will show all you stupid liberal arts wimps how to drink!

(I think our brains are fried from Saturday morning's drinkfest at our favorite watering hole. Have you ever been in a bar on a Saturday morning at 11:30, when it wasn't St. Pat's? Hold on, struggling for a topic....) By the way, I recommend buying Hootie and The Blowfish's new cd. Quite good. Oh, yeah, here is a line for the week, try to use it in conversation: "Wouldn't it be fun to romp around in the sheets on a day like today?" Response: "Gee, it couldn't be that fun by yourself."

We were starting to feel a little snifflish, however we decided to bag Student Death --we mean the Infirmary-- because we had plenty of Sudafed and Tylenol. Have you ever noticed that? One could go in there with a sprained ankle, and they will always take your temperature, and then

ask you, "Are you pregnant?", and finally load you down with crap, that you know you will never use, but you take it because it is free. Oh, and by the way, don't forget their last words, "You'll be better in a week." Right, you could be dead by then, but hey, you have plenty of Tylenol. Hey, does anyone remember the Hot Tub rash incident from hell? Think back, old timers. It happened over at #1 Fraternity Drive. Just thought a little nostalgia would be good.

Man, this article hums. Guys, you know what we mean. Gals, ask a guy for a definition. We apologize for the sucktacious writing. We are tired and sick of this crap hole, and Rose is half-buzzed on some stuffy-head-fever-so-you-can-cope medicine. Yeah, cope with reality in Rolla. (We realize that is an oxymoron, Rolla, reality, whatever.) Later.

Stars

from page 14

PISCES (FEB. 19-MAR. 20): First of all, my friend, you don't need no stinking second-hand anything, let alone second-hand love. Second of all, dearest, you are hereby ordered not to hang around any third-rate situations where you feel like a fifth wheel. You savvy?

Thirdly, wonderful one, keep in

mind that any eightball you think you're behind is a figment of your own delusions. Fourthly, lover, I assure you that your sixth sense can now lead you - if you free it of all superstition - to a place that is, for all intents and purposes, a suburb of seventh heaven.

Answer: Where you can always find happiness and contentment - THE DICTIONARY

Tracksters on the Move

Kirk Jordan

Staff Writer

The University of Missouri-Rolla men's and women's track teams traveled to Central Missouri State University to compete in the Nike/CMSU Classic this weekend. The women were in sixth place after fourteen events with twenty total points. The lady Miners were led by Jennifer Frasier (Mexico, Mo.), who took first

place in the 5000 meter run with a time of 18:56.61. Tracy Jones (Rolla, Mo.) also recorded a strong finish for the team with a third place finish in the 800 meter run with a time of 2:22.86. Kim Finke (Montgomery City, Mo.) leaped 5'4.5" in the high jump for a fourth place finish. Jacchelle Cacer from Northwest Missouri set a new building record with a jump of 5'10" in the event. After fifteen events, the men had recorded no significant finishes. Next Saturday the Miners will be in Columbia to compete in the Missouri Intercollegiate.

M-Club Athlete of the Week

This week's M-Club athlete of the week is Ryan Uptmor, a member of the UMR swim team. Ryan is a freshman from Oklahoma City, Oklahoma and is enrolled in Freshman Engineering. On February 4, the Miner swim team defeated the University of Missouri-St. Louis in a dual meet. Ryan placed first in the 200 yd. freestyle and the 100 yd. butterfly. Good luck to Ryan and the rest of the Miner swim team this weekend at Regionals in St. Peters, Missouri.

Ryan Shawgo

Lady Miner forward #21 Katherine Kersten heaves up a shot during the Lady Miners victory over Northeast. The Lady Miners won 90-67.

Ryan Shawgo

#35 Scott Rush drives to the hole during the Miners loss to Northeast Missouri State.

Justin Ferguson

Last Saturday at the Gale Bullman Multipurpose Building, UMR hosted the 1st Annual Tae Kwon Do Tournament. The full-contact tournament was a huge success, despite a few minor injuries.

Justin Ferguson

The UMR Tae Kwon Do 1st Annual Tournament was a kick for everyone. Watch for more Tae Kwon Do Club info in the Miner.

Our floating rate keeps you above water.

With PCB's Variable Rate CD, you don't have to wait around for a better rate. The interest rate "floats" according to current market, allowing you a market average over the life of your CD. Contact any PCB employee-owner to find out more about our Variable Rate CD and "paddle" your way to a better financial future.
